

Technical Budget — 10 Recurring Clients (Production)

v1 · Internal · 2026-08-25

Scope: infrastructure to run all 4 services — AI Chatbot, Social Media Integration, Analytics Dashboard, AI Email Manager — for 10 paying, recurring clients. Production only, single tier, no build/test phase.

Monthly Cost

Tool	Covers	Cost/mo
Convocore White Label	AI Chatbot + Social Media Integration (WhatsApp/Messenger/Instagram, no extra fee) + built-in usage analytics — required from client #1 for multi-client management	\$199
Hostinger VPS (srv1881104)	Hosts n8n (AI Email Manager + All system workflows) + Zenny dashboard	\$19.49
Supabase	Client/lead/order/conversation data	\$0 (free tier)
Pinecone	Knowledge-base embeddings	\$0 (free tier)
Notion	Internal KB/docs (not client-facing)	\$0 (free tier)
Analytics Dashboard page	New (Have to build) dashboard.zeromanuals.com/analytics page on the existing dashboard	\$0
AI Email Manager	n8n + client's own Gmail/Outlook API/Oauth	\$0
Total		\$218.49/mo

► **Voice is not included** (per instruction). White Label bundles 3 Twilio numbers + 10 call lines at no extra cost if switched on later; beyond that, +\$3/mo per extra number and +\$5/mo per extra call line.

Free-Tier Reality Check (at 10 clients)

Tool	Free tier holds?	Approx. real ceiling	Next tier if exceeded
Supabase	Yes — 500MB DB / 5GB bandwidth is comfortable at this scale	~30-40 clients (depends on conversation volume)	Pro — \$25/mo (8GB DB, 250GB bandwidth)
Pinecone	Yes — 2GB storage / 2M writes/mo covers 10 clients' KB embeddings	~20-30 clients (depends on KB size/client)	Standard/Builder — ~\$20/mo starter
Notion	Yes — not client-count driven; internal use only	N/A (driven by team size, not clients)	Plus — \$10/user/mo if team grows

Estimates above are sizing approximations, not load-tested against real traffic — re-check once real usage data exists.

Bottom Line

10 clients cost **\$218.49/mo total**, all on free tiers except Convocore White Label (\$199) and the VPS (\$19.49). No other paid tools required to hit 10 recurring clients.
